

**WILDE GANZEN
FOUNDATION**

Bericht uit Mymensingh waar wij in onze 3 dagcentra 70 kinderen en gezinnen ondersteunen. 27 juli 2020

Thanks for supporting us.

From March people of Bangladesh affected by COVID-19 corona virus. People of Bangladesh are scared about this virus seriously from 18th March-2020. In Mymensingh and Muktagacha we conduct 03 daycare centers where 70 children with disabilities are the direct beneficiaries. Last four month CP daycare mothers getting support from Physci, Wilde Ganzen and other well-wishers. Really it was great support for their family. In the lockdown period they could not find the way how they support their families. In the meantime Physci, Wilde Ganzen and other well-wishers come forward to support them. All the cp daycare parents are great full to them.

Awareness Meeting:

Program Coordinator and CP daycare team conduct awareness meeting with parents in the food giving

program. CP daycare staff have been conducting awareness session through mobile communication with different lessons. Getting regular awareness session and keeping regular care of their child, still all the cp daycare children are very well in their home. We provide medicine to children as per their needs. In the last two month 20 children suffered from a lot of epilepsy, high fever and pneumonia. Eight children were admitted in the hospital. But now they are fine at their home. Now our volunteer goes to their home and follow-up their health condition regularly.

Provide AFO: We provide 18 pairs AFO normal and Dynamic (these are splints) to our children. Also more special wooden chairs are provided.

Dinajpur:

27-juli 2020: Ook vanuit Dinajpur ontvangen wij dagelijks berichten en foto 's over de voortgang van de CORONA Nood ACTIE die Stichting PhySCI samen met de Wilde Ganzen en diverse sponsors kon realiseren. Een foto impressie:

Naaiessen en verstrekken naaimachines:

35 moeders volgen naaiessen in vier groepen verdeeld, vanwege Corona en afstand houden. Het is regentijd, dus helaas kunnen de lessen niet buiten worden gegeven.

Cementmolen:

Een vader kreeg een cement molen zodat hij zich kan uitlenen aan bouw projecten en zo zijn kost verdienen.

Bakfiets:

Een vader vroeg een bakfiets om in zijn eigen onderhoud te voorzien.

Koeien: Inmiddels zijn er 25 melkkoeien aangekocht en verstrekt aan de gezinnen.

Aan u allen hartelijk dank.

Ria Schmitz
